STRESS-FREE®

GETS RID OF ODOR AT THE SOURCE

WHILE LEAVING BEHIND A LIGHT AND REFRESHING SWEET SUNSET SCENT. *THANKFULLY, STRESS FREE™ ODOR ELIMINATION AIR FRESHENER IS DIFFERENT.*

In a matter of seconds, you can transform any room into a stress-free, worry-free zone of relaxation that's ready to welcome you and all of your guests without fear of bad odors creeping back in.

WHERE TO USE IT

The Stress-Free® Odor Elimination Air Freshener can be used throughout any room in your home to get rid of an array of bad smells. Whether it's from pets, people, shoes, dirty laundry, or something else entirely, this dry aerosol spray can be used in the bedroom, bathroom, office, kitchen, kennel, and anywhere else you want to remove bad odors.

You can also bring a can to your office where it can be used to keep your work area smelling fresh all day long. Likewise, this aerosol is safe and effective for locker rooms, senior living centers, healthcare facilities, and all other living spaces, too!

HOW TO USE IT

This air freshener is V.O.C. compliant and it works to attack airborne odors as soon as you spray it. Using it is quick and simple, just spray the fresh mist through the air. When using for an entire room, simply spray it through the air while moving your arm in a wide sweeping motion to minimize fallout.

You can also lightly mist it directly onto troublesome fabrics—like your sofa or office chair. You can even use it to freshen the clothes in your closet, your pet's bedding, and other things that tend to collect odors over time. After using, you'll instantly begin to notice how refreshed everything smells and feels.

You can use the air freshener as often as needed to eliminate odors and leave behind a perfectly balanced fresh scent. You should use it regularly in the bathroom, basement, shared offices, smoke-filled rooms, and any place where odors are a recurring problem. With regular use, you'll never have to suffer through them again.

TRY IT FOR YOURSELF

We are very excited to be sharing the new Stress-Free® Odor Elimination Air Freshener with everyone because we believe in its effectiveness for businesses and individuals alike.

If you're interested in learning more about the product and trying it for yourself, you can buy some directly from our Online store or give a territory representative a call to discuss bringing a new great scent into your office space.

INTERNET SAFETY

CYBER SAFETY TIPS

If you receive emails regarding highly sensitive information, do not open any links directly and do not reply with your information. Contact the sender's office and see if the email was legitimate and not fraudulent. Fake emails often contain virus' or links to harmful content.

Be sure to create intricate passwords utilizing uppercase characters, lowercase characters, symbols and numbers; unique to each account you have created. This way if one account is compromised, the offender is not able to log into other accounts with the same password.

When using shared computers, be sure to log out from every website you visited.

Don't forget to check out the privacy settings on your Facebook account to see who is able to see your content.

Hackers can often compromise content without you knowing it, these are some things that hackers use to get your information; weak passwords, fake email messages, malware installation and virus installation typically happens when opening fake email messages. Avoid these by taking a few extra steps that will prevent this from happening to you!

HOME & LIFESTYLE

PREP YOUR YARD FOR SPRING

Here are some tips to help you keep your grass alive and to prevent extra work in the spring.

It is true; grass is less active in the winter and may even become dormant due to harsh weather

conditions. If grass is left too long in winter it can become perfect homes to small rodents who burrow and build nests on it which will create dead spots.

Pick up leaves, branches, yard waste containers, lawn equipment, etc. off of the grass because if left for long periods of time it can kill the grass underneath causing more damage than the cold weather itself.

Shoveling walkways and keeping them clear of ice will prevent the urge to walk on your snow covered grass; this will reduce heavy foot traffic. Compacted dirt and soil on your lawn will damage and smother the grass.

If there is a need to keep where you shoveled clear of snow and ice, then sprinkle a "snow and ice melt" product in that area while still being careful not to get it on the grass. (Using sand will be less damaging if it does touch your lawn.)

THINGS TO DO

IDEAS TO KEEP YOURSELF BUSY

We all know winter is the time of the year where most people spend indoors. That doesn't mean you have to feel like a prisoner in your own home.

So here are some activities to do inside: Try redecorating a room in your house. Moving furniture around not only gets your heart rate going, but it provides you with a new and refreshing "change of scenery."

Start planning your summer vacation! It will give you something to look forward to, and you can save money by planning ahead and avoiding expensive last-minute plane tickets.

Winter is also the perfect time to dive into that book you've been wanting to crack open. Grab your blanket, and snuggle up next to a fire.

If you start to feel lethargic or blue, exercise! Yoga is the perfect exercise to do inside your house. It requires little space and the Internet is the perfect place to find beginner videos.
